## About the Program...

### Program Objectives:

- ✦ Define & implement vascular access protocols to achieve cost effective vascular access
- ✦ Identify & define the central venous access devices that are currently available
- ✦ Recognize the major potential complications of central venous access devices and implement appropriate nursing interventions for prevention & management of them

### Upon Successful Completion:

- ✦ The participant will receive a *Certificate of Completion* indicating 30-hours of I.V. Therapy Education
- ✦ *Note: Successful completion includes attendance, class participation, and a minimum grade of 80% on the Post Test*

### Executive Director:

#### Kay Coulter, RN, CRNI

is a nationally known I.V. therapy clinician who has practiced nursing for 38 years, with a special focus on infusion for the past 28 years. Her background includes acute care, long term care, and home infusion. She earned her infusion certification in 1987 and has presented numerous infusion related education seminars across the U.S. Her reputation, as a quality infusion therapy educator, is well known on the local, state, and national level.
